

Yellow Loses Primary!

News flash! The color yellow speaks out.

Diatropicists have determined that yellow has no place in the primary wheel. "They need to step down immediately and move into secondary position," says diatropic specialist Mr. Al L. Hue. The color yellow was not available for immediate comment, but we tracked him down at a local Color us Equal rally where a group of disgruntled secondary colors gathered to protest the news and support equal color wheel distribution.

The color yellow said he felt "shunned." He went on to say that "Secondary colors are not second class citizens. We are a valuable part of the color spectrum and through our collaborative efforts we have created an infinitesimal number of new colors! Would orange exist without precious yellow? It is time for secondaries – not just yellow, but cyan and magenta, to stand up and be recognized for the values we add to the world!
